

# Elias B Issa, PhD

Curriculum Vitae 06/2019

Columbia University  
Zuckerman Mind Brain Behavior Institute  
Jerome L. Greene Science Center  
3227 Broadway, Floor 05-004  
New York, NY 10027  
Office / [212.853.1164](tel:212.853.1164)  
Email / [elias.issa@columbia.edu](mailto:elias.issa@columbia.edu)

RESEARCH INTEREST | The neural mechanisms and computational principles underlying high-level vision and audition

---

## POSITIONS

---

**Columbia University** - New York, NY 2017-Present  
Assistant Professor in the Department of Neuroscience

## EDUCATION & TRAINING

---

**Massachusetts Institute of Technology** - Cambridge, MA 2017  
Visiting Scientist in Brain & Cognitive Sciences

**Massachusetts Institute of Technology** - Cambridge, MA 2008-2016  
Postdoctoral Associate in Brain & Cognitive Sciences  
*Neural dynamics in fMRI identified face selective regions in macaque IT cortex*  
Advisor - James DiCarlo, MD, PhD

**Johns Hopkins University** - Baltimore, MD 2001-2008  
PhD in Biomedical Engineering  
Thesis: *The processing of sounds in marmoset auditory cortex during sleep*  
Advisor - Xiaoqin Wang, PhD

**Johns Hopkins University** - Baltimore, MD 1997-2001  
BS in Biomedical Engineering with highest distinction

## PUBLICATIONS

---

**HONORS & AWARDS**

---

2019-2022 Klingenstein-Simons Fellowship Award in Neuroscience  
2017-2020 NIH Pathway to Independence Award (R00)

## Postdoctoral

2012-2014 NIH Pathway to Independence Award (K99)  
2009-2012 NIH NRSA Postdoctoral Fellowship (F32)  
2010 Cosyne Conference Gatsby Travel Fellowship

## Graduate

2008 Paul Ehrlich Award for Dissertation, Young Investigator's Day  
2007 Murray B. Sachs Research & Travel Award  
2002-2006 Whitaker Foundation Graduate Student Fellowship in Biomedical Engineering

## Issa CV

### GRADUATE STUDENT & POSTDOCTORAL SUPERVISION

---

Kell, Alexander. PhD Brain & Cognitive Sciences, MIT. 2019-Present

Jeon, You-Nah. BA Neuroscience & Economics, Columbia. 2018-Present

Toosi, Tahereh. PhD Neuroscience, IPM Institute for Research in Fundamental Sciences. 2018-Present

Namburi, Praneeth. PhD Brain & Cognitive Sciences, MIT. 2018-2019

### CONFERENCE PRESENTATIONS

---

Schrimpf M, Kar K, Bashivan P, Nayebi A, DiCarlo J, Kubilius J, Hong H, Majaj N, Rajalingham R, Issa EB, Bear D, Prescott-Roy J, Schmidt K, Yamins D (2019). Using Brain-Score to Evaluate and Build Neural Networks for Brain-Like Recognition. Cosyne Abstr. 16. Lisbon, Portugal.

Issa EB & Wang XW (2005). Effect of sleep on processing of complex sounds in auditory cortex. Assoc. Res. Otolaryng. Abstr. 28, #1005. New Orleans, LA. **poster**

**INVITED PRESENTATIONS**

Core visual object recognition behavior in common marmosets. Zuckerman Faculty Lunch, Columbia University, New York, NY (2019)

Comparing the predictions of deep neural networks to high-resolution behavioral and neural data in primates. Neuroscience Faculty Meeting, Columbia University, New York, NY (2018)

Comparison of object recognition behavior in humans, monkeys, and deep neural networks. Theoretical Neuroscience Seminar, Columbia University, New York, NY (2017)

## Issa CV

Comparison of object recognition behavior in humans, monkeys, and deep neural networks. Computational Neuroscience Initiative, University of Pennsylvania, Philadelphia, PA (2017)

Evidence that the ventral visual stream codes the errors used in hierarchical inference and learning. Columbia Neurobiology Retreat, Columbia University, New Paltz, NY (2016).

[Evidence that the ventral visual stream codes the errors used in hierarchical inference and learning](#). CCN Workshop: Predictive Coding, Dartmouth College, Hanover, NH (2016).

Core object recognition at the image-grain: a comparison of monkey, model, human, and neural behavior. Kanwisher Lab, MIT, Cambridge, MA (2016).

Behavior, neurons, and computation: an integrated approach to understanding how the brain solves visual object recognition. Department of Neuroscience, Columbia University, New York, NY (2016).

A simple, universal system for nonhuman primate behavioral testing. Division of Comparative Medicine, MIT, Cambridge, MA (2015).

Neural dynamics in the primate ventral visual cortex during face processing. Center for Brains, Minds & Machines Face Identification Workshop, MIT, Cambridge, MA (2015).

Dynamics of neural processing during hierarchical inference in the ventral stream. Department of Experimental Psychology, University College London, UK (2015).

Neural signals for performing visual inference and learning in the cortical hierarchy. Bodian Seminar, Mind/Brain Institute, Department of Neuroscience, Johns Hopkins University, Baltimore, MD (2015).

Visual face processing in primate cortex: dynamics and computation. Department of Neurobiology, Harvard Medical School, Boston, MA (2014).

Face processing in primates: a model system for studying the neural basis of high-level vision. Department of Psychology, UCSD, La Jolla, CA (2014).

Visual face processing in primate cortex: dynamics and computation. Salk Institute, La Jolla, CA (2014).

The neural computations that underlie face processing in primates. 9.S912: Vision & learning - computers and brains, MIT, Cambridge, MA (2013).

Neural recordings and computational modeling of PL, the earliest face selective region in monkey IT. Kanwisher Lab, MIT, Cambridge, MA (2013).

Neural recordings and computational modeling of PL, the earliest face selective region in monkey IT. Vision Sciences Lab, Harvard University, Cambridge, MA (2013).

Neural recordings and computational modeling of the earliest face selective region in monkey IT, area PL. Serre Lab, Brown University, Providence, RI (2013).

Neural recordings and computational modeling of the earliest face selective region in monkey IT, area PL. Brain Lunch Series, Massachusetts Institute of Technology, Cambridge, MA (2012).

Mapping neural responses to faces in inferotemporal cortex. 9th Annual McGovern Institute

## Issa CV

Retreat, AAAS Norton Woods Conference Center, Cambridge, MA (2011).

Neural processing of sounds during sleep in primate auditory cortex. Object Recognition Laboratory, MIT McGovern Institute, Cambridge, MA (2007).

Cortical processing of sounds in the sleeping brain. Center for Hearing and Balance Seminar Series, Johns Hopkins Medical Institution, Baltimore, MD (2007).

Why you do not hear sounds (as well) while you sleep. Biomedical Engineering Friday Student Seminar, Johns Hopkins Medical Institution, Baltimore, MD (2007).

Effects of Sleep on Neural Responses to Sounds in Auditory Cortex. Neurology/Psychology Sleep Research Meeting, Johns Hopkins Bayview Medical Center, Baltimore, MD (2006).

## COURSES

---

Imaging Structure & Function in the Nervous System (Summer 2014)  
Cold Spring Harbor Laboratory

## TEACHING EXPERIENCE

---

Principles and Design of Biomedical Instrumentation (Fall 2006) **teaching assistant**  
580.471 (advanced undergraduate)  
Dept of Biomedical Engineering, Johns Hopkins University

Biomedical Engineering Signals and Systems (Spring 2004) **teaching assistant**  
580.222 (undergraduate)  
Dept of Biomedical Engineering, Johns Hopkins University

## PROFESSIONAL SOCIETIES

---

2007-2017 Society for Neuroscience  
2004-2008 Association for Research in Otolaryngology  
2000-2001 Tau Beta Pi Undergraduate Engineering Honors Society

REVIEWER | *Journal of Neuroscience, Journal of Vision, Neuron*
