[Elias B Issa, PhD](#)

Curriculum Vitae 05/2023

Columbia University
Zuckerman Mind Brain Behavior Institute
Jerome L. Greene Science Center
3227 Broadway, 05-004
New York, NY 10027
212.853.1164
elias.issa@columbia.edu

RESEARCH INTEREST | The neural mechanisms and computational principles underlying high-level vision

POSITIONS

Columbia University - New York, NY	09/2017-Present
Assistant Professor, Department of Neuroscience	
Affiliate Member, Department of Biomedical Engineering	01/2023-Present
Member, NSF AI Institute for Artificial & Natural Intelligence (ARNI)	05/2023-Present

EDUCATION & TRAINING

Massachusetts Institute of Technology - Cambridge, MA	2017
Visiting Scientist in Brain & Cognitive Sciences	
Massachusetts Institute of Technology - Cambridge, MA	2008-2016
Postdoctoral Associate in Brain & Cognitive Sciences	
<i>Neural dynamics in fMRI identified face selective regions in macaque IT cortex</i>	
Advisor - James DiCarlo, MD, PhD	
Johns Hopkins University - Baltimore, MD	2001-2008
PhD in Biomedical Engineering	
Thesis: <i>The processing of sounds in marmoset auditory cortex during sleep</i>	
Advisor - Xiaoqin Wang, PhD	
Johns Hopkins University - Baltimore, MD	1997-2001
BS in Biomedical Engineering with highest distinction

HONORS & AWARDS

2020-2023	Grossman-Kavli Scholar
2020-2022	Sloan Research Fellowship
2019-2022	Klingenstein-Simons Fellowship Award in Neuroscience
2017-2020	NIH Pathway to Independence Award (R00)

Postdoctoral

2012-2014	NIH Pathway to Independence Award (K99)
2009-2012	NIH NRSA Postdoctoral Fellowship (F32)
2010	Cosyne Conference Gatsby Travel Fellowship

Graduate

2008	Paul Ehrlich Award for Dissertation, Young Investigator's Day
2007	Murray B. Sachs Research & Travel Award
2002-2006	Whitaker Foundation Graduate Student Fellowship in Biomedical Engineering

DOCTORAL STUDENT & POSTDOCTORAL SUPERVISION

Morrill, Ryan. PhD Neuroscience, UCSF. 2021-Present

Radvansky, Brad. PhD Neuroscience, Northwestern. 2020-2022

Shook, Erica. BS Mathematics, Davidson. 2020-2022

Kell, Alexander. PhD Brain & Cognitive Sciences, MIT. 2019-2022

Jeon, You-Nah. BA Neuroscience & Economics, Columbia. 2018-Present

Toosi, Tahereh. PhD Neuroscience, IPM Institute for Research in Fundamental Sciences. 2018-2022

Issa CV

Namburi, Praneeth. PhD Brain & Cognitive Sciences, MIT. 2018-2019

UNDERGRADUATE & MASTER'S STUDENT SUPERVISION

Adiraju, Sreyas. BS Applied Mathematics & Neuroscience (expected 2025), Columbia University. 2023-Present

Chabenat, Eugénie. Bachelor's Life Sciences Engineering, EPFL. 2023-Present

Ying, Zhuofan (Josh). BA Computer Science & Philosophy, UNC Chapel-Hill. 2023-Present

CONFERENCE PRESENTATIONS

Toosi T, Kriegeskorte N & Issa EB (2023). Object-enhanced and object-centered representations across primate ventral visual cortex. Conference on Cognitive Computational Neuroscience Paper #1349. Oxford, UK.

Toosi T & Issa EB (2022). Representational straightening of natural movies in robust feedforward neural networks. Soc. Neurosci. Abstr. 51, #513.03. San Diego, CA. **talk** (nanosymposium)

Jeon Y, Cho H, Issa EB (2022). Marmosets can robustly recognize faces defined by 3D geometry alone, invariant to pose, lighting & background changes. Soc. Neurosci. Abstr. 51, #053.08. San Diego, CA. **poster**

INVITED PRESENTATIONS

Geometry based face recognition. Vision Research Center Seminar, Penn (2023)

Technical advances in marmoset behavior and physiology. Marmoset Research Program Monthly Meeting, MIT. Virtual Seminar (2022)

Methods for behavioral studies in free moving, semi-restrained, and head-fixed marmosets. Marmoset Neural Recording talk series. Virtual seminar (2022)

Factorized encoding of scene variables as a putative normative principle for high-level visual cortex. Zuckerman Faculty Lunch, Columbia University, New York, NY (2021)

[Encoding scene properties: new normative principles for models of IT visual cortex beyond object classification.](#) Mind, Brain, Computation and Technology Symposium 2021 - Where the rubber meets the road: Computational models and empirical evidence. Stanford University, Virtual Seminar (2021)

Core visual object recognition behavior in common marmosets. Zuckerman Faculty Lunch, Columbia University, New York, NY (2019)

Issa CV

Comparing the predictions of deep neural networks to high-resolution behavioral and neural data in primates. Neuroscience Faculty Meeting, Columbia University, New York, NY (2018)

Comparison of object recognition behavior in humans, monkeys, and deep neural networks. Theoretical Neuroscience Seminar, Columbia University, New York, NY (2017)

Comparison of object recognition behavior in humans, monkeys, and deep neural networks. Computational Neuroscience Initiative, University of Pennsylvania, Philadelphia, PA (2017)

Evidence that the ventral visual stream codes the errors used in hierarchical inference and learning. Columbia Neurobiology Retreat, Columbia University, New Paltz, NY (2016).

[Evidence that the ventral visual stream codes the errors used in hierarchical inference and learning.](#) CCN Workshop: Predictive Coding, Dartmouth College, Hanover, NH (2016).

Core object recognition at the image-grain: a comparison of monkey, model, human, and neural behavior. Kanwisher Lab, MIT, Cambridge, MA (2016).

Behavior, neurons, and computation: an integrated approach to understanding how the brain solves visual object recognition. Department of Neuroscience, Columbia University, New York, NY (2016).

A simple, universal system for nonhuman primate behavioral testing. Division of Comparative Medicine, MIT, Cambridge, MA (2015).

Neural dynamics in the primate ventral visual cortex during face processing. Center for Brains, Minds & Machines Face Identification Workshop, MIT, Cambridge, MA (2015).

Dynamics of neural processing during hierarchical inference in the ventral stream. Department of Experimental Psychology, University College London, UK (2015).

Neural signals for performing visual inference and learning in the cortical hierarchy. Bodian Seminar, Mind/Brain Institute, Department of Neuroscience, Johns Hopkins University, Baltimore, MD (2015).

Visual face processing in primate cortex: dynamics and computation. Department of Neurobiology, Harvard Medical School, Boston, MA (2014).

Face processing in primates: a model system for studying the neural basis of high-level vision. Department of Psychology, UCSD, La Jolla, CA (2014).

Visual face processing in primate cortex: dynamics and computation. Salk Institute, La Jolla, CA (2014).

The neural computations that underlie face processing in primates. 9.S912: Vision & learning -

Issa CV

computers and brains, MIT, Cambridge, MA (2013).

Neural recordings and computational modeling of PL, the earliest face selective region in monkey IT. Kanwisher Lab, MIT, Cambridge, MA (2013).

Neural recordings and computational modeling of PL, the earliest face selective region in monkey IT. Vision Sciences Lab, Harvard University, Cambridge, MA (2013).

Neural recordings and computational modeling of the earliest face selective region in monkey IT, area PL. Serre Lab, Brown University, Providence, RI (2013).

Neural recordings and computational modeling of the earliest face selective region in monkey IT, area PL. Brain Lunch Series, Massachusetts Institute of Technology, Cambridge, MA (2012).

Mapping neural responses to faces in inferotemporal cortex. 9th Annual McGovern Institute Retreat, AAAS Norton Woods Conference Center, Cambridge, MA (2011).

Neural processing of sounds during sleep in primate auditory cortex. Object Recognition Laboratory, MIT McGovern Institute, Cambridge, MA (2007).

Cortical processing of sounds in the sleeping brain. Center for Hearing and Balance Seminar Series, Johns Hopkins Medical Institution, Baltimore, MD (2007).

Why you do not hear sounds (as well) while you sleep. Biomedical Engineering Friday Student Seminar, Johns Hopkins Medical Institution, Baltimore, MD (2007).

Effects of Sleep on Neural Responses to Sounds in Auditory Cortex. Neurology/Psychology Sleep Research Meeting, Johns Hopkins Bayview Medical Center, Baltimore, MD (2006).

PATENTS

Screwless Implant for Neural Access

US Provisional Application No. 63/392,918 filed July 28, 2022 (Kell AJE & Issa EB)

Implant for Hip Replacement

US Provisional Application No. 63/392,921 filed July 28, 2022 (Kell AJE & Issa EB)

COURSES

Imaging Structure & Function in the Nervous System (Summer 2014)
Cold Spring Harbor Laboratory

Issa CV**TEACHING EXPERIENCE**

Principles and Design of Biomedical Instrumentation (Fall 2006) **teaching assistant**

580.471 (advanced undergraduate)

Dept of Biomedical Engineering, Johns Hopkins University

Biomedical Engineering Signals and Systems (Spring 2004) **teaching assistant**

580.222 (undergraduate)

Dept of Biomedical Engineering, Johns Hopkins University
